- ▶ Free selection of courses from course catalogue
- ▶ Erasmus: At least 51 % of ECTS at our faculty
- ▶ classes for Master students are held in English (by default)
- ▶ different types of classes
 - ▶ lecture ("Vorlesung"): once or twice a week held by a professor
 - ▶ exercise session ("Übung"): In addition to lecture, presentation of exercises in smaller groups, solving problems, discussion/explanation of lecture
 - ▶ seminar ("Seminar"): once a week, every student gives a talk for one session
 - ▶ practical course ("Praktikum"; for computer science students): Working on a project with a group on your own time during the semester and giving a presentation about the project at the end of the semester

- ▶ lectures: one exam (oral or written) at the end of the semester/during the vacation
- ▶ examination method differs from lecture to lecture and will be clarified in the first week
- ▶ if there are exercises, 50% of the points are a prerequisite for admission to the exam
- ▶ seminars: credit points and grade are given for the talk
 - ▶ proseminars, seminars, oberseminars
- ▶ registration for exams/seminars/exercises via FlexNow is **mandatory**
 - ▶ registration deadline for exercises very early in the semester (Nov. 15/ May 15, but depends on the lecture)

- ▶ EXA: list of classes provided at the entire university and information about them (introduced since this winter semester, some improvements are still being done)
- ▶ StudIP: upload of exercises, notes, etc. for classes you registered for, most frequently used tool during the semester
- ▶ FlexNow: registration for exams, seminars, exercise sessions, overview over grades, issuing your academic record
- ▶ ECampus: unifies all of those, further tools: email-account, booking of rooms in the LSG, administration
- ▶ **Göttingen International** gives introduction videos on how to use these online tools

- ▶ Compulsory modules should not be done in the last semester
- ▶ For some (consecutive) courses, preliminary work has to be done beforehand

Module catalogue gives overview of criteria in order to complete M.Sc.

- ▶ Applied Computer Science: open **Module catalogue**, then under Applied Computer Science MSc: English module catalogue Applied Computer Science M.Sc. (non-official English translation of the module directory ("Modulverzeichnis"))
- ▶ Applied Data Science: open this **website**, then under Applied Data Science MSc: Modulverzeichnis (Englische Übersetzung, nicht amtlich). This is a non-official English translation of the module directory ("Modulverzeichnis")
- ▶ Mathematics: on this **website**, choose the last version under "Modulverzeichnis zu der Prüfungs- und Studienordnung" (currently it is Version AM II 07/11.07.2023 , German only)

Seminar: Seminar Optimal Transport - Details

i Course under special admission. Please read the note.

Actions

- Go to course
- Reserve only in the timetable

Share

- Copy URL to this course

General information

Course name	Seminar: Seminar Optimal Transport
Course number	503284
Semester	SoSe 2022
Current number of participants	0
expected number of participants	10
Home institute	Institut für Informatik
Courses type	Seminar in category Teaching
Next date	Wed., 20.04.2022 14:00 - 16:00
Veranstaltungsformat	Online, Wahlweise in Präsenz
Semesterwochenstunden	2
ECTS points	5

Lecturers

Prof. Dr. Bernhard Schölkopf

Course location / Course dates

n.A. Wednesday: 14:00 - 16:00, week(12x)

- There can be special admission settings to enrol in some courses (maximum number of participants, only allowed to enrol in one exercise session per module, etc.)

► Generation of Certificates

The screenshot shows the top navigation bar of the ECampus website. It features the logo of Georg-August-Universität Göttingen (UMG) and the text 'GEORG-AUGUST-UNIVERSITÄT GÖTTINGEN' and 'UNIVERSITÄTSMEDIZIN GÖTTINGEN : UMG'. Below the logo, there are navigation links: 'Home', 'More', and 'Self-Service'. A secondary navigation bar contains buttons for 'Student status', 'Contact data', 'Bank account and mandate', and 'Requested Reports / Reports' (which is highlighted in dark blue).

asta
Universität Göttingen

train ticket

Your valid student identity card with the print "Semesterticket" and the logo of the Lower Saxony semester ticket serves as a ticket on the included railway lines for a bigger version of the map, more information and answers to frequently asked questions, check out the homepage of the General Student Council: asta.uni-goettingen.de/belblatt

If you have any questions or doubts, please contact: ticket@asta.uni-goettingen.de

All the usable trains can be viewed under: asta.uni-goettingen.de/fahrplan-semesterticket/streckennetz

Note:

- The ticket covers neither long distance trains (IC, IC-D) – except for the IC/IC-D on the Nordsee-Meer – Bremen Hbf railway line – nor trains of the S-Bahn Hamburg which are not included in the ticket. The ticket does not entitle you to lease IC or IC-D trains or an extra charge.
- In the HVV Greater Hamburg Area, the ticket does not cover lines which start and end within the area of the Hamburg Public Transport Association (HVV).
- The semester ticket does not cover bicycle transport, in order to take a bicycle with you, you must buy an extra bicycle ticket.
- The semester ticket also covers rail replacement services on the included railway lines.
- Of course, you can take all trains in both directions.
- In order to guarantee connections, the semester ticket is also valid between the stations Kassel-Wehrhahn and Kassel-Vorbahnhof on the train of Regiojet (RT), Hessische Landesbahn (HLB), DO Regio and Kurhessenbahn (CKB).
- Additional routes only for students at the University of Göttingen: Göttingen-Geismar trains on the routes (Lehr- – Geismar), (Kassel – Geismar), (Göttingen – Heuerstein) and (Kassel – Göttingen)

The screenshot shows the library search interface. At the top, there are navigation links: Search, Results (active), Advanced search, Saveset, Borrower information, and Help. The search bar contains the text 'probability theory' and is set to 'search'. The results are sorted by 'year of publication' and show 11 results out of 3788. The results list includes titles such as 'Geostatistics Toronto 2021', 'Comparing experiments for modelling farm risk management decisions...', 'Statistical methods for data analysis...', 'Modern Cryptography Volume 2', 'An introduction to the study of the stochastic properties of dynamical systems', 'Stability Problems for Stochastic Models, Theory and Applications II', 'Regularized System Identification: Learning Dynamic Models from Data', 'Stationary processes and discrete parameter Markov processes', 'Measure theory, probability and stochastic processes', and 'On quasi-infinitely divisible distributions'. The page also features a sidebar with options like 'Save Analyse Set Logout', 'GoDiscovery', 'Additional catalogues and databases', 'Systematic search since 1994 (SUB)', 'Systematic search until 1945 (SUB)', and 'Video tutorials'. At the bottom, there are links for 'Lent or not available?' and 'Book acquisition programme for students'.

Figure: Library search page

- ▶ The books are automatically lent for 4 weeks with a possibility of extending the period. That can be done online
- ▶ For extending you should login in **library account**. Your login is your library number (is on the back of your student card, the password is given to you during enrolment process. You can and should change it later)
- ▶ In case of a late return you must pay a fine

- ▶ Each student has a so-called printing balance for printing, scanning etc. It is about 5€ for one semester. This money can be used for printing only and are taken back at the end of each semester. In case if you would need more than 5€ per semester, you can load your own money to the printing balance.
